

Glimpse of Israel:

For those of you who have not been fortunate enough to get to Israel, here's a little primer of information.

Israel is tiny in land mass and Massive in terms of ingenuity and fortitude!

The media makes Israel sound like a large predator. In fact, Israel is tiny, having about 0.16% of the land mass of the Middle East (about the size of New Jersey).

Yet Israel has:

- one of the highest life expectancies in the world
- the highest standard of living in the region
- the 32nd largest economy in the world
- among the most educated countries in the world
- 11th in the UNs World Happiness Report
- 25% of the workforce in Israel has university degrees (3rd in the world)
- 12% of Israelis hold advanced degrees
- the highest concentration of high-tech companies (more than 3,500)
- the 3rd highest rate of entrepreneurship in the world
- the highest rate of entrepreneurship in the world among women
- Israel has one of the highest percentages of number of home computers per capita and huge major tech developments including the first cell phones, AOL, instant messenger, Windows NT operating system, Pentium MMX Chip, Centrino processors, voicemail technology, micro indwelling cameras, etc.
- Israel is an amazing place to visit and live.

We can help you arrange a Travel and Train vacation to the Holy Land.
